Southeast Review and Update on Medical Care of Older Adults

July 7-9, 2017

Callaway Gardens
Pine Mountain, GA
COURSE DESCRIPTION

By 2030, an estimated 1 in 5 Americans will be over 65 years of age. The size of the older adult population in the Southeast and other regions of the country is posing unprecedented challenges for the broader health care workforce and placing new pressures on the overall health care system. These challenges reflect not only the increasing size of this diverse population, but also the unique medical and health care system requirements for persons living into their seventh decade and beyond.

The care of older adults requires a different approach and skill set for identifying and treating common geriatric problems. This course is designed to equip medical providers and other members of the multi-disciplinary health care team with basic and cutting edge knowledge for optimizing the delivery of services to the expanding older adult population.

TARGET AUDIENCE

This activity is designed for physicians, within the specialties of Internal Medicine, Family Medicine, Physical Medicine and Rehabilitation, Hospital Medicine, and Emergency Medicine. In addition pharmacists, nurses, physician assistants, physical therapists, and other healthcare professionals who care for older adults will benefit from this course.

LEARNING OBJECTIVES

At the conclusion of this activity, the participant will:

- Implement office-based screening for geriatrics conditions such as depression, dementia, falls, and incontinence.
- Identify prevalent psychosocial problems in older people;
- Apply medical, psychological, social and rehabilitative interventions to improve independence and quality of life;
- Understand ethical issues and health policies concerned in the medical treatment and decision-making process related to the financing and delivery of geriatric care;
- Describe effective geriatric health care in acute, sub-acute, post-acute, outpatient, care transitions, long-term care, and other settings;
- Interpret information on the prevention, diagnosis, treatment, and management of clinical disorders in older adults;
- Analyze results of risk-assessment of older patients, specific appropriate interventions, and identify anticipated outcomes;

CONTINUING EDUCATION CREDIT

The Emory University School of Medicine designates this live activity for a maximum of 12 AMA PRA Category Credits™. Physicians should only claim credit commensurate with the extent of their participation.

The Emory University School of Medicine is accredited by the Accreditation Council of Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Successful completion of this CME activity, which includes participation in the evaluation component enables the participant to earn up to 12 MOC points in the American Board of Internal Medicine’s (ABIM) Maintenance of Certification (MOC) program. It is the CME activity provider’s responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

CONFERENCE LOCATION & LODGING

The conference will be held at the Lodge and Spa at Callaway Gardens, 4500 Southern Pine Drive, Pine Mountain, GA 31822. We have reserved a block of rooms at the discounted rate of $159.00 per night, plus applicable taxes. A $15 resort fee will apply which includes access to all resort amenities, and enhanced wireless internet. The group rate is available 3 days before and 3 days after the conference. Call 706-489-3300 to reserve your accommodations. After June 5, regular rates will apply. For more information about The Lodge and Callaway Gardens, visit http://www.callawaygardens.com.

REGISTRATION & CANCELLATION INFORMATION

The registration fee includes course materials, continental breakfast and breaks and other amenities involved in a rewarding learning experience. Minimum and maximum enrollments have been established. A refund of your registration fee (less a $75 administrative fee) will be made if written cancellation is received no later than June 23, 2017. No refund will be given after June 23. The liability of Emory University is limited to the registration fee. Emory will not be responsible for any losses incurred by registrants, including but not limited to airfare cancellation or hotel deposits.

Registration fee: $325 Physicians; $225 for allied health professionals.
