HOAG FAMILY CANCER INSTITUTE PRESENTS
13TH ANNUAL
Embracing Excellence in Oncology Nursing Practice
FEBRUARY 23 – 24, 2018
THE WATERFRONT BEACH RESORT, A HILTON HOTEL
21100 PACIFIC COAST HIGHWAY
HUNTINGTON BEACH, CA 92648

This program made possible by a generous donation to the Hoag Hospital Foundation from Circle 1000
Conference Overview

This conference is designed to address practical issues and clinical challenges that oncology nurses face each day. Hoag’s 13TH Annual “Embracing Excellence in Oncology Nursing Practice” is designed for nurses dedicated to the field of oncology who practice in settings across the continuum of care. During this two day conference, attendees will benefit from an intimate learning environment in which prominent faculty will present the latest in oncology care, and provide practical strategies and tools to improve nursing practice and patient outcomes.

CEU Accreditation & Credit Designation/ILNA Points

This conference has been approved by the California Board of Registered Nursing, with provider number 00146, for a total of sixteen (16.0) contact hours (8.0 for Friday, 8.0 for Saturday), of continuing education credit for R.N.s.

This program is approved for ILNA Points. The program content has been reviewed by the Oncology Nursing Certification Corporation (ONCC) and is acceptable for recertification points. ONCC review is only for designating content to be used for recertification points and is not for CNE accreditation. CNE programs must be formally approved for contact hours by an acceptable accreditor/approver of nursing CE to be used for recertification by ONCC. If the CNE provider fails to obtain formal approval to award contact hours by an acceptable accrediting/approval body, no information related to ONCC recertification may be used in relation to the program.

Who Should Attend

This conference is intended for oncology and radiation oncology nurses. Pharmacists as well as others with an interest in recent advances in the treatment of solid tumors and hematologic malignancies are welcome to attend. Students enrolled in a registered nursing program who have interest in oncology are also invited to attend this program.

Acknowledgment

This event is generously supported by Circle 1000, a Hoag Hospital Foundation support group benefitting Hoag Family Cancer Institute.
Educational Objective

Describe the value and humanity of oncology nursing from the perspective of a young mother with breast cancer and how it impacted her experience and survival.

Describe and discuss the challenges of gynecological cancers throughout the continuum, from diagnosis to survivorship.

Describe the delivery of survivorship care and methods to stratify risk to support the notion that “one size does not fit all”.

Examine the role of pastoral/spiritual care in caring and supporting the patient, family, and nurse.

Discuss management strategies to prevent chemotherapy induced nausea and vomiting using current guidelines to enhance adherence.

Describe current updates in the treatment of neuro-oncologic diagnoses.

Identify the management of breast cancer patients from the medical, surgical and oncoplasty perspective.

Describe and summarize the nursing care challenges related to new treatments for metastatic breast cancer patients.

Identify and list new drugs that have been FDA approved for cancer treatment in 2017.

Understand the latest developments in treatment and discuss the nurse's role in caring for the patient undergoing CAR T-Cell Therapy.

Summarize the current state and new treatment options for pancreatic cancer.

Describe the California End of Life Option Act and articulate how nurses constructively respond to a patient’s request.

Describe new information related to clinical trials and the treatment and management of colon cancer.

Review and examine the history of medical cannabis and discuss its impact and use in the care of patients and challenges with referrals and access.

Apply information learned from cannabis case studies to nursing practice and care planning.

Identify how weight and obesity play a role in cancer, and describe the management strategies for compassionate care of the obese patient.
Program Director

Tina Tillman, MSN, RN, FNP, CNS, OCN®
Clinical Nurse Specialist, Education Coordinator, Oncology Services
Hoag Family Cancer Institute

Program Committee
