Redefining
HIV/AIDS:

Friday, March 30, 2012
Glaser Auditorium
Swedish Medical Center/First Hill
747 Broadway
Seattle, Washington
Course Goal
The first cases of AIDS were reported 30 years ago on June 5, 1981. Since that time, people with HIV, researchers, clinicians, allied health professionals, nonprofit organizations, the government, activists and many others have worked to overcome hurdles and celebrate advances in the HIV/AIDS epidemic in the United States. The goal of this course is to provide primary-care providers with the most current information about the prevention and treatment of HIV/AIDS from clinical, community and legislative perspectives. It will also provide a forum for members of the health-care community to learn about new trends in the diagnosis, treatment and prevention of HIV/AIDS. There will be discussion about the treatment of other chronic medical and social conditions in HIV/AIDS patients. Additionally, the conference will provide a networking opportunity for the medical and non-medical communities involved in the fight against HIV/AIDS.

Target Audience
This conference is intended for all health-care professionals, including primary-care physicians, nurses, social workers, pharmacists and specialists, who treat patients living with HIV/AIDS. This conference is also appropriate for members of community coalitions, advocacy groups and nonprofit organizations that treat and support communities affected by HIV/AIDS.

Learning Objectives
At the conclusion of this course, the participant will provide better patient care through an increased ability to:

- Evaluate trends in HIV and AIDS, plan an approach to HIV testing and prevention and organize and implement guidelines for post-exposure prophylaxis of staff
- Explain the important role of primary care in the screening and detection of HIV infection, identify high quality HIV/AIDS care in the primary-care setting and discuss the management of HIV in special populations
- Describe the status and trends of the HIV epidemic in the United States, explain the current state-of-the-art antiretroviral treatment and discuss new advances in the prevention of HIV
- Demonstrate competent HIV care and follow-up through the first regimen change, identify common medication interactions to avoid in your patients and identify issues unique to HIV positive pregnant women
- Discuss the range of ethical issues confronted by people dealing with HIV infection, identify ethical dilemmas associated with HIV disclosure, discuss the ethical challenges with HIV treatment, increase awareness with “duty-to-warn” situations and develop an approach to resolving ethical conflicts with HIV
- Identify new directions in HIV prevention nationally and locally, explain the rationale for increased emphasis on case-finding and treatment in HIV prevention and review the budgetary challenges affecting HIV prevention
- Identify the state’s implementation of the Affordable Care Act, explain how the Affordable Care Act may impact HIV/AIDS patients and their providers and discuss the evolution of health-care policy regarding HIV/AIDS

Agenda
7:30 a.m.   Registration and Breakfast
8 a.m.     Welcome and Introductions
           Jay Fathi, M.D. and Randy Russell, LASW
8:10 a.m.   HIV and AIDS: Epidemiology, Trends and Testing
           Lisa Jernigan, M.D., FAAFP
8:55 a.m.   HIV in the Primary-Care Setting: Vulnerable Populations
           Richard Kovar, M.D., FAAFP
9:40 a.m.   Q&A Session
9:55 a.m.   Break
10:10 a.m.  HIV 2012 Clinical Care Update
           David Spach, M.D.
10:55 a.m.  Primary Care of the HIV Patient: Pitfalls and Pearls
           Lisa Jernigan, M.D., FAAFP
11:55 a.m.  Q&A Session
12:10 p.m.  Lunch (provided)
1 p.m.      Ethics Panel – Case Studies
           Peter Shalit, M.D., Ph.D. and Margo Bykonen, R.N., MN
2 p.m.     Break
2:15 p.m.   New Directions in Public Health and HIV Prevention and Care
           Matthew Golden, M.D., MPH
3:15 p.m.   HIV/AIDS and Implementation of the Affordable Care Act
           Jonathan Seib, JD, MPA
4:15 p.m.   Q&A Session
4:30 p.m.   Adjourn

Location/Directions/Parking
Swedish Medical Center is located at 747 Broadway in Seattle, Washington. The conference will be held in the Glaser Auditorium on the first floor of Swedish Medical Center. Parking is available in the Broadway Garage at 747 Broadway. From I-5 (northbound and southbound), take the James Street exit. Travel east on James Street. Turn left (north) onto Broadway. Turn left into the main hospital entrance and follow the signs to the Broadway underground parking garage.

Needs Statement
Since the first cases of AIDS were reported, many have dedicated their lives to fighting the HIV/AIDS epidemic in the United States. Despite many successes, there is still much work to be done to stop an epidemic that has claimed the lives of more than half a million persons in the United States — and more than 25 million persons worldwide. The White House recently released the National HIV/AIDS Strategy — a plan for a comprehensive and coordinated roadmap to address challenges our nation is facing. The goals of the national strategy include reducing the number of people who become infected with HIV, increasing access to care and optimizing health outcomes for people living with HIV and reducing HIV-related health disparities. This conference will raise participants’ awareness of and competence in new treatments and diagnostic tools. It will provide participants with the most current information available in the modern fight against AIDS.

Accreditation with Commendation
This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of Swedish Medical Center and Lifelong AIDS Alliance. Swedish Medical Center is accredited by the ACCME to provide continuing medical education for physicians.

AMA PRA Category 1 Credits™
Swedish Medical Center designates this live activity for a maximum of 7 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

AAFP Prescribed Credits
Application for CME credit has been filed with the American Academy of Family Physicians. Determination of credit is pending.

Nursing CE Contact Hours
Contact hours for this continuing nursing education activity have been submitted to Swedish Medical Center an approved provider of continuing nursing education by the Washington State Nurses Association Continuing Education Approval & Recognition Program (CEARP), an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation. For more information about nursing contact hours, please contact Swedish Clinical Education through vicki.enslow@swedish.org.

NASW
This workshop is pending approval for CEUs by the Washington Chapter, National Association of Social Workers (NASW) for Licensed Social Workers, Licensed Marriage & Family Therapists and Licensed Mental Health Counselors. Our Provider Number is 1975-300.

Pharma CEUs
Application for CME credit has been filed with the Washington State Board of Pharmacy. Determination of credit is pending.
