Helping Our Patients Achieve Their Goals: A Palliative Care Perspective

Texas Health Presbyterian Hospital Denton - Rio Grande Conference Room
3000 Interstate 35 N
Denton, TX 76201

TUESDAY, SEPTEMBER 30, 2014; NOON – 1:00 P.M.

The goal of this activity is to address ethical details for the integration of palliative care into the management of advanced chronic or terminal conditions. Palliative care should not be confined to the end-of-life care. The contribution of palliative care is relevant not only when a patient’s symptoms are not being addressed adequately by other treatments, but also for optimal patient management and efficient use of resources. The following ethical matters will be addressed in the presentation: dignity should be priority, a patient’s sense of being a burden to the family, and satisfying personal goals of care for the patient.

PROGRAM SPEAKER:
Ona Nwosu, M.D.
Medical Director
Faith Presbyterian Hospice
Dallas, Texas

PROGRAM DIRECTOR:
Timothy Harris, M.D.
Chief Medical Officer
Texas Health Presbyterian Hospital Denton
Denton, Texas
