Pediatric Infectious Disease Update

Wednesday, Aug. 31, 2016

Akron Children’s Hospital
Considine Professional Building Auditorium
215 W. Bowery St.
Akron, OH 44308
Who Should Attend

This event offers up-to-date, practical information about pediatric infectious disease for any healthcare professional who cares for children. There will also be opportunities to participate in case discussions.

Continuing Education

Children’s Hospital Medical Center of Akron is accredited by the Ohio State Medical Association to provide continuing medical education for physicians. The Children's Hospital Medical Center of Akron designates this live activity for a maximum of 5.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in this activity.

Disclosure Statement

As a provider of the Ohio State Medical Association, it is the policy to require the disclosure of the existence of any financial interest a planning committee member or presenter has with either the commercial supporter(s) of this activity or the manufacturer of any commercial products discussed, and when necessary, resolve any potential conflict.

All presenters and planning committee members have nothing to disclose.

Directions and Parking

The Considine Professional Building is located directly across from Akron Children’s Hospital on W. Bowery Street. Driving directions and parking information can be found at akronchildrens.org/maps.

Special Accommodations / Questions

Should you require special accommodations or have questions pertaining to the conference, please contact Tonya Wilmot at 330-543-8395 or twilmot@chmca.org.

Get the latest CME news and updates from Akron Children’s Hospital by following @childrens_cme. Start or join the conversation about this conference using the hashtag #IDU16.
Overall Conference Objectives

1. List new pathogens responsible for bone and joint infection
2. Describe methods for measuring adequacy of therapy
3. Explain change in antibiotic susceptibility to common pathogens
4. Recognize alternative antibiotic therapies for the highly allergic patient or patient with refractory infection
5. Examine the growing challenges associated with outpatient antimicrobial use in children
6. Explain the various ways that stewardship directly impacts clinicians and families
7. Recount different office-based strategies for implementing antimicrobial stewardship
8. Explain the value of ongoing clinical research in the area of pediatric infectious disease
9. List five examples where recently published papers can contribute to current clinical practice
10. Indicate newer diagnostics in the field of infectious disease
11. Describe what we are adopting currently in our lab
12. Identify what other facilities are available as send out options
13. Describe the value of a travel medicine consult before travel
14. Delineate travel related vaccine and prophylaxis
15. Identify non-vaccine preventable disease
16. Describe the evaluation of fever in a returning traveler
17. Examine the best cases from 2016 and review the diagnosis and treatment
