JAY S. SMITH, DDS

Dr. Smith earned his Bachelor of Science degree in biology at Furman University in Greenville, South Carolina and received his dental degree and completed his residency in prosthodontics at Emory University in 1990. He was awarded the Hinman Scholar Award for Scholastic Achievement. Dr. Smith is past president of the Western Georgia section of the American College of Prosthodontists and a member of the Academy of Osseointegration, the American Dental Association and the Georgia Dental Association. Dr. Smith lectures nationally and internationally on esthetic, implant and restorative dentistry. He maintains a private practice limited to prosthodontics.

DWIGHT R. WEATHERS, DDS, MSD

Dr. Weathers is a board certified oral maxillofacial pathologist and academician who took his pre-dental, dental and specialty training at Emory University and then joined the faculty at the Emory University School of Dentistry. He served as a faculty member, Chairman and finally as Dean until the School of Dentistry closed in 1992. He was then transferred to the School of Medicine where he served as Professor of Pathology and Dermatology. He has made presentations nationally and internationally and has been featured clinician at both major dental meetings and continuing dental education venues.
Location
On a mile and a half of pristine beach, off the northeast coast of Florida, you’ll find the elegant and fun Ritz-Carlton Amelia Island Resort, 4750 Amelia Island Parkway, Amelia Island, FL 32043. This award-winning resort offers you the opportunity to swim, play golf and tennis, and enjoy incomparable service. For the youngsters, there is a Ritz Kids Program, children’s pool and playground, and nanny service.

Accommodations
We are holding reservations for a block of rooms at the following group rate: $309 plus tax per night, single or double. Please make your reservations by Monday, May 28, 2018 to receive the group rate. Please call 1-888-239-1217 or 1-904-277-1100 when making reservations. Please reference the Emory Continuing Dental Education Beauty and the Beast program to receive the discounted group rate.

Demand for rooms is high during our program. It is highly recommended you make your reservations as soon as possible, as this rate is available through May 28, 2018 or until the block is sold out, whichever comes first. After this date, reservations will be made on a space available basis. Hotel rooms in the Emory Beauty and the Beast room block are reserved for Emory Beauty and the Beast program registrants. To assure that our room block is available for the meeting registrants, Emory CDE will contact persons reserving rooms to confirm their meeting registration.

Continuing Dental Education Credit
Emory University School of Medicine is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Emory University School of Medicine designates this live activity for 10.5 continuing dental education credits.

Educational Methods
Illustrated lectures and discussion.

Meeting Materials
In accordance with Emory University’s sustainability initiative, the course handouts/syllabus will be emailed to registrants prior to the meeting. We are offering handouts via email ahead of time so that you have an opportunity to see or print them before the meeting. No printed handouts will be available onsite.

Registration on Friday will begin at 7:30am.

Course Description
Beauty and the Beast Esthetic Dentistry and Oral Disease will provide timely and practical information on new advancements in oral pathology as well as highlight “Pearls” from the single missing tooth to the fully edentulous reconstruction. Collaboration with other dental team members will be discussed through multiple case presentations.

Who Should Attend
Dentists, dental hygienists, dental assistants and all members of the dental team will benefit from this clinically focused program.

Registration Fees
All registration fees include tuition, course materials and continental breakfasts.

8:00am – 12pm
PROSTHODONTIC “PEARLS” FOR ENHANCED EFFICIENCY IN IMPLANT DENTISTRY
Jay Smith, DDS

Dental implants and esthetic dentistry have evolved into integral elements of contemporary dental practice. We must develop the ability to evaluate cosmetic deficiencies and design procedures for smile enhancement. Implant soft tissue development into an anatomical form is critical to mimic natural teeth. Dr. Smith will describe step by step sequencing for single teeth implants as well as the implant challenges with adjacent missing teeth in the esthetic zone. The advantages of digital dentistry will be presented, with implants and natural teeth. This presentation will highlight “Pearls” from the single missing tooth to the fully edentulous reconstruction. Collaboration with other dental team members will be discussed through multiple case presentations.

LEARNING OBJECTIVES
Upon completion of this presentation, the participant will be able to:

- Discuss soft tissue development with provisional restorations;
- Describe the differences between single and adjacent implants;
- Explain how to create then decide when to make an INOL immediate provisional;
- Give examples of “Pearls” for efficiency, material selection and profitability;
- Relate simple concepts for patient marketing and case presentation;
- Summarize the advantages of IOL (Immediate Occlusal Loading), when and where;
- Give examples of success through team collaboration.

Saturday, June 30, 2018
8:00am – 12pm
PROSTHODONTIC “PEARLS” FOR ENHANCED EFFICIENCY IN IMPLANT DENTISTRY
Jay Smith, DDS
(SESSION CONTINUED)

Sunday, July 1, 2018
8:00am – 10:30am
THE POINT OF THE CUTTING EDGE
Dwight R. Weathers, DDS

It is not enough anymore to be just on the cutting edge of dentistry. We must be on the very point of the cutting edge. That is the only way to keep abreast of the latest advancements since medicine and dentistry are changing with lightning speed.

This presentation will include synopses of a variety of the latest research findings in oral and medical conditions and diseases that are important to us as dentists in practice or for us personally. Much of this material represents preliminary findings that promise a significant break-through. It represents research published in 2017-2018.

LEARNING OBJECTIVES
Upon completion of this presentation, the participant will be able to:

- Summarize current dental and applicable medical research findings in oral and medical conditions;
- Describe recent directions and findings of current research in dentistry and medicine;
- Give examples in current research and explain how this research is progressing.
