Anna Mirk, MD
Assistant Professor of Medicine, Geriatrics
Tom Price, MD
Associate Professor of Medicine, Geriatrics
Diego Remolina, MD
Assistant Professor, Geriatrics
COURSE DESCRIPTION
By 2030, an estimated 1 in 5 Americans will be over 65 years of age. The size of the older adult population in the Southeast and other regions of the country is posing unprecedented challenges for the broader health care workforce and placing new pressures on the overall health care system. These challenges reflect not only the increasing size of this diverse population, but also the unique medical and health care system requirements for persons living into their seventh decade and beyond.

The care of older adults requires a special approach and skill set for identifying and treating common problems in this demographic. This course is designed to give medical providers and other members of the multi-disciplinary health care team basic and cutting edge knowledge for optimizing the delivery of services to the expanding older adult population.

TARGET AUDIENCE
This activity is designed for physicians – including Internal Medicine, Family Medicine, Emergency Medicine, Physical Medicine, Hospital Medicine, and others – as well as for pharmacists, nurses, physician assistants, physical therapists, and other healthcare professionals who provide care for older adults.

LEARNING OBJECTIVES
At the conclusion of this activity, the participant will:

- Identify prevalent psychosocial problems in older people as well as ethical issues in healthcare delivery, medical treatment, and decision-making;
- Interpret information on the prevention, diagnosis, treatment, and management of clinical disorders in older adults;
- Summarize current research findings in geriatrics and describe their relevance to the care and treatment of older adults;
- Interpret information on the prevention, diagnosis, treatment, and management of clinical disorders in older adults;
- Implement office-based screening for geriatrics conditions such as depression, dementia, polypharmacy, falls, and continence.

CONTINUING EDUCATION CREDIT
The Emory University School of Medicine designates this live activity for a maximum of 12.50 AMA PRA Category Credits™. Physicians should only claim credit commensurate with the extent of their participation.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 12.50 MOC points in the American Board of Internal Medicine’s (ABIM) Maintenance of Certification (MOC) program. It is the CME activity provider’s responsibility to submit participant completion information to the Accreditation Council of Continuing Medical Education (ACCMCE) for the purpose of granting ABIM MOC credit.

Application for AAFP prescribed credits has been submitted. Approval is pending.

Emory Nursing Profession Development Center (ENPDC) is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation. Attendees to this CNE activity will be awarded up to 12.50 contact hours by the ENPDC.

CONFERENCE LOCATION & LODGING
The conference will be held at the Lodge and Spa at Callaway Gardens, 4500 Southern Pine Drive, Pine Mountain, GA 31822. We have reserved a block of rooms at the discounted rate of $167.00 per night, plus applicable taxes. Additional rooms are available at the Mountain Creek Inn at $109 per night, plus applicable taxes. A $15 resort fee will apply which includes access to all resort amenities, and enhanced wireless internet. The group rate is available 3 days before and 3 days after the conference subject to availability.

To reserve your accommodations visit the Callaway website EmoryUniversity-GeriatricMedicineMeeting or call reservations at 706-489-3300. Refer to Emory University – Geriatric Medicine to receive the group rate.

After June 5, regular rates will apply. For more information about The Lodge and Callaway Gardens, visit http://www.callawaygardens.com.

REGISTRATION & CANCELLATION INFORMATION
The registration fee includes course materials, continental breakfast and breaks and other amenities. Minimum and maximum enrollments have been established. A refund of your registration fee (less a $75 administrative fee) will be made if written cancellation is received no later than June 28, 2019. No refund will be given after June 28. The liability of Emory University is limited to the registration fee. Emory will not be responsible for any losses incurred by registrants, including but not limited to airfare cancellation or hotel deposits.

Registration fee: $400 Physicians; $300 for Allied Health Professionals; $100 for Residents/Fellows
