HOAG FAMILY CANCER INSTITUTE PRESENTS
15TH ANNUAL

Hoag Embracing Excellence in Oncology Nursing Practice

FEBRUARY 21 - 22, 2020
THE WATERFRONT BEACH RESORT, A HILTON HOTEL
21100 PACIFIC COAST HIGHWAY
HUNTINGTON BEACH, CA 92648

This program made possible by a generous donation to the Hoag Hospital Foundation from Circle 1000
Conference Overview

This conference is designed to address practical issues and clinical challenges that oncology nurses face each day. Hoag's 15th Annual Oncology Nurses Conference “Embracing Excellence in Oncology Nursing Practice” is designed for nurses dedicated to the field of oncology who practice in settings across the continuum of care. During this two day conference, attendees will benefit from an intimate learning environment in which prominent faculty will present the latest in oncology care and provide practical strategies and tools to improve nursing practice and patient outcomes.

CEU Accreditation & Credit Designation/ILNA Points

This conference has been approved by the California Board of Registered Nursing, with provider number 00146, for a total of 15.5 Contact Hours (7.5 for Friday and 8.0 for Saturday), of continuing education credit for registered nurses.

This program is approved for ILNA Points. The program content has been reviewed by the Oncology Nursing Certification Corporation (ONCC) and is acceptable for recertification points. ONCC review is only for designating content to be used for recertification points and is not for CNE accreditation. CNE programs must be formally approved for contact hours by an acceptable accreditor/approver of nursing CE to be used for recertification by ONCC. If the CNE provider fails to obtain formal approval to award contact hours by an acceptable accrediting/approval body, no information related to ONCC recertification may be used in relation to the program.

Who Should Attend

This conference is intended for oncology and radiation oncology nurses. Pharmacists as well as others with an interest in recent advances in the treatment of solid tumors and hematologic malignancies are welcome to attend. Students enrolled in a registered nursing program who have interest in oncology are invited to attend this program.

Acknowledgment

This event is generously supported by Circle 1000, a Hoag Hospital Foundation support group benefitting Hoag Family Cancer Institute.
Educational Objectives

Outline guidelines necessary to minimize liability exposure. The attendee will understand documentation best practices.

Apply bioethical principles in nursing practice and humanize ethical concepts through storytelling.

List at least two new drugs/new applications to treat patients with myeloma, along with monitoring and managing side effects.

Recognize medical and family histories suggestive of hereditary cancer syndromes.

Describe the various patterns of CINV and explain the physiological and biochemical pathways involved in CINV.

Identify and list new drugs that have been FDA approved for cancer treatment in 2019.

Describe the role of nurses in the education, assessment, and management of immune-related adverse events (irAEs).

Discuss the diagnosis, staging and surgery related to HPV cancers.

Identify at least 4 different clinical implications of cannabis in the oncology population and differentiate how cannabis can be used for treatment of insomnia, pain, nausea/vomiting and anxiety.

Discuss evidence-based strategies for the care and maintenance of vascular access devices.

Describe the evidence and care of the patient diagnosed with head and neck cancer and the association with HPV.

Identify nursing strategies in the prevention and management of oncologic emergencies.

Summarize the role of the oncology nurse when caring for patient’s enrolled in a clinical trial.

List key skills nurses can use to promote Mindfulness in their practice and care for patients and themselves.

Explain the role of pathology in the management and care of the Sarcoma patient.

Discuss the long-term effects of radiation to the oral cavity: a patient’s perspective.
