

Gastroenterology for Primary Care

Thursday March 11, 2021
Live Online via MS Teams

About the Course

This course is designed to introduce providers to the fundamentals of gastroenterology for primary care. Course content will be clinically oriented, informal, and interactive, and will include case presentations and patient stories.

Target Audience

Primary Care physicians, advanced practice nurses, physician assistants, and members of the health care team who seek to advance their knowledge in this area.

Course Objectives

At the end of the conference, attendees will be able to:

- Appropriately treat patients with nonalcoholic fatty liver disease in primary care.
- Manage patients with functional bowel disorders.
- Collaborate with GI and nutrition.
- Diagnose and treat patients with abdominal pain.
- Reflux.
- Manage needs of patients with inflammatory bowel disease.
- Review the latest in hepatitis B virus treatment, cancer screening and management.
- Cite the latest in colon cancer screening methods and updated surveillance intervals.
