Hospitalists and inpatient clinicians are increasingly called upon to provide care for patients of high acuity across a broad spectrum of medical and surgical conditions. In the face of these demands, hospitalists strive to become Master Clinicians. We all recall the Master Clinician who helped train us; the clinician we most wanted to emulate. Our symposium’s rapid pace, relevant topics, and format are designed to ensure a highly valuable experience that will help move you towards your goal of becoming a master clinician.

Our faculty consists of national and international leaders in their fields and our sessions have been designed to provide highly relevant material in a concise and stimulating format.

HIGHLIGHTS INCLUDE:

- **Keynote speaker, Dr. Ron Greeno**, President-elect of the Society of Hospital Medicine (SHM) and Chief Strategy Officer for IPC Healthcare, speaking on The Hospitalist’s Role in the Era of Healthcare Reform.
- **Leading experts** providing updates on the Evaluation and Management of Seizures in the Hospital and New Recommendations from the 2016 ACCP VTE Guidelines.
- **Pearls for Practice** series presenting rapid fire lectures on core topics, including Delirium, Acute Pancreatitis, and Bleeding in the Anticoagulated Patient.
- **Skills Center** – Enhance your expertise in essential skills that impact patient care on a daily basis. Stations include Acid-base interpretation, CXR evaluation, and advanced ECG analysis.
- A hands-on workshop on Handheld Ultrasound Skills.

Our **WORKSHOPS** provide participants with a choice of Three Tracks in which to gain expertise. Concentrate in one track to develop expertise or mix-and-match tracks to experience a variety of topics:

1. **HOSPITALIST AS GENERALIST**—Develop mastery of core topics, including Pre-Operative Assessment and Pain Management
2. **HOSPITALIST AS SPECIALIST**—Develop expertise in areas such as Ventilator Management and ESRD Essentials
3. **ENHANCING QUALITY & VALUE**—Workshops will educate and enlighten on topics including Providing Patient-Centered Care and Mindfulness Practices for Stress Reduction

Come to increase your knowledge of core topics, learn more of subspecialty conditions, increase your value to your hospital, and network with colleagues. In short, come to continue your quest to become a Master Clinician!
