Statement of Need:

The goal is to examine the culture and practice of Neurosurgery through the lens of an underrepresented group to establish new ways to envision its practice, research projects and mentoring processes in order to create better roads for women to ascend to senior ranks within the field. By addressing these barriers to entry and other pitfalls, this program will work to create tangible solutions by creating a space where this unique group can collaborate, learn and connect.

Program Objectives:

- Create methods to influence culture at attendees' hospitals to ultimately make space for women to join the practice and become senior leaders in field.
- Explore gender disparities in neurosurgical patient care, research, education, and leadership to create a more complete view on how best to shape neurosurgical programs.
- Evaluate gender bias in research

Target Audience: MDs, DOs, PAs, NPs, RNs and all members of the healthcare team interested in neurosurgery.

Course Offering and Registration Fees:

- **\$10** Physicians
- **\$5** PAs, RNs, NPs
- **No charge** Residents, Medical Students and Fellows

Joint Accreditation Statement:

In support of improving patient care, Northwell Health is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.
