Seventh annual Shining the Light on Wound Care Virtual Symposium

Please click here to register

Statement of need: The need for this activity stems from the ever changing and expanding fund of knowledge that exists in the Wound Care field. Also the strain of chronic wounds on both the patient and health system as a whole provide reason to host an educational conference. This symposium will address current concerns and knowledge gaps as well as provide various solutions to everyday problems faced by wound care practitioners and patients. This CME activity aims to provide Wound Care professionals and specialists with up-to-date knowledge and techniques of current wound care practices.

Program objectives: All Northwell Health CME activities are designed to improve patient care, safety and outcomes. At the conclusion of this conference, participants should be able to:

- **Examine** current treatment and challenges incurred from the COVID pandemic with the effect on wound care.
- **Assess** the ways in which diabetes guides the formulation of medical, surgical, nutritional and podiatric treatment plans.
- **Discuss** the use of current topical wound therapies for optimal wound healing.
- **Integrate** advances in limb salvage in helping to assist in wound healing
- **Recommend** guidelines for identifying and controlling infection in different types of wounds
- **Review** skills needed to assess wounds and demonstrate dressing management.

Target audience: Wound Care Specialists, Vascular Surgeons, Dermatologists, Podiatrists, Nutritionists, Physical Therapists, Orthotists, Prosthetists, Pedorthists, PAs, NPs, RNs, Residents, and Fellows.

Joint Accreditation Statement:

In support of improving patient care, Northwell Health is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.
