Advances in Urology 24th Annual Advances in Urology 4th – 9th, 2014 Casa Marina, Key West, Florida

Friday – April 11, 2014

10:45-11:15am  Registration/Continental Breakfast/Exhibits

11:30-11:45am Keynote

11:45-11:50am The PA/NP Physician Team: Maximizing the Present Role of Laparoscopic, Robotic and Minimally Invasive Surgical Techniques

11:55-12:20pm Update on Urodynamics

12:25-12:45pm Question and Answer

12:45-1:15pm Break/Exhibits

Monday – April 7, 2014

1:45-2:15pm State of the Art: Urological Procedures – Part 1 – Keynote

2:20-2:45pm Robotic Partial Nephrectomy

2:50-3:15pm Advanced Renal Cell Carcinoma for the General Urologist

3:20-3:45pm Post-Prostatectomy Incontinence

3:50-4:15pm Update on Intravesical Therapies

4:20-4:45pm Management of Bladder Preservation vs. Cystectomy

4:50-5:15pm Management of the Small Renal Mass

5:20-5:45pm Contemporary Use of Renal Mass Biopsy

5:50-6:15pm Advanced Prostate Cancer in 2014

6:20-6:45pm Adjuvant vs. Salvage Radiation

7:05-7:30pm Update on Urodynamics

7:35-8:00pm Question and Answer

Friday – April 11, 2014

9:25-9:35am Management of Refractory LUTS

9:40-9:55am Management of Bladder Cancer

10:00-10:25am Update on Interstitial Therapies

10:30-10:55am Surveillance for Low-Risk Bladder Cancer

Friday – April 11, 2014

10:55-11:20am Modern Management of Prostate Cancer – Part 1

11:25-11:50am Management of Elevation

11:55-12:20pm Break/Exhibits

12:25-12:45pm Question and Answer

12:45-1:15pm Break/Exhibits

1:15-2:30pm Update on Urodynamics

2:35-3:00pm Management of Bladder Preservation vs. Cystectomy

3:05-3:30pm Management of the Small Renal Mass

3:35-4:00pm Contemporary Use of Renal Mass Biopsy

4:05-4:30pm Advanced Prostate Cancer in 2014

4:35-5:00pm Adjuvant vs. Salvage Radiation

5:05-5:30pm Update on Urodynamics

5:35-6:00pm Question and Answer

Tuesday – April 8, 2014

7:05-7:30am Active Surveillance for Prostate Cancer

7:35-8:00am Management of Pelvic Cancer – Part 1

8:05-8:30am Tips and Tricks of Robotic Prostatectomy

8:35-9:00am Adjunctive (or Salvage) Radiation

9:05-9:30am Advanced Prostate Cancer in 2014

9:35-10:00am Management of Elevation

10:00-10:25am Break/Exhibits

10:25-11:00am Question and Answer

11:05-11:30am Break/Exhibits

11:35-12:00pm Management of Refractory LUTS

12:05-12:30pm Management of Bladder Cancer

12:35-1:00pm Management of Elevation

1:05-1:30pm Reassessing the Role of Laparoscopic, Robotic and Minimally Invasive Surgical Techniques

1:35-2:00pm Update on Urodynamics

2:05-2:30pm Management of Bladder Preservation vs. Cystectomy

2:35-3:00pm Management of the Small Renal Mass

3:05-3:30pm Contemporary Use of Renal Mass Biopsy

3:35-4:00pm Advanced Prostate Cancer in 2014

4:05-4:30pm Adjuvant vs. Salvage Radiation

4:35-5:00pm Update on Urodynamics

5:05-5:30pm Question and Answer

Wednesday – April 9, 2014

6:00-7:30pm Orientation/Reception/Exhibits

7:35-8:00am Active Surveillance for Prostate Cancer

8:05-8:30am Tips and Tricks of Robotic Prostatectomy

8:35-9:00am Adjunctive (or Salvage) Radiation

9:05-9:30am Advanced Prostate Cancer in 2014

9:35-10:00am Management of Elevation

USF Health is an Equal Opportunity / AFFIRMATIVE ACTION INSTITUTION.

Faculty Disclosures

USF Health adheres to the ACCME Standards regarding the disclosure of all relevant conflicts of interest relating to the topics of this educational activity, that relevant conflict(s) of interest are resolved, and that the information provided is accurate and reliable. The faculty and staff of the Office of Continuing Professional Development are responsible for making sure that all information provided in this activity is in accordance with USF Health policy and ACCME Standards. The faculty and staff shall not present any material or any other form of commercial support that inappropriately biases the activity. Faculty who disclose a conflict of interest in advance of delivering any educational activity shall ensure that any presentation or educational activity related to this topic is presented without bias.

Faculty and staff of the Office of Continuing Professional Development are required to disclose to the audience any financial or personal relationships with any commercial interests that may pertain to this educational activity. The faculty and staff shall ensure that no interference with the presentation of the educational activity occurs to the detriment of the audience. Faculty and staff are required to inform the audience of any such conflict of interest before delivering this activity. This evaluation will be used by the Office of Continuing Professional Development to determine the necessity of the faculty's continued participation in this educational activity. Faculty and staff are responsible for obtaining continuing medical education credits if applicable. Faculty and staff are required to update their Disclosure of Financial Interest annually.
One of the greatest challenges for the practicing urologist is staying abreast of the latest advances in the field. This course is designed for practicing urologists and reconstructive surgery with a strong emphasis on the technical aspects of various procedures that will enable greater patient satisfaction.

Objectives

- Understand the latest advances in the management of prostatic, bladder and kidney cancer.
- Expose the audience to the minimally invasive robotics, and minimally invasive surgery for urological diseases.
- Properly screen patients to determine the best patient outcome.
- Identify the present role of laparoscopic, robotic and robotic-assisted surgery.
- Describe the latest management of incontinence and various voiding dysfunction.
- Properly counsel the patient about the technical aspects of various treatments.
- Understand the role of lifestyle, nutritional, and treatment of voiding dysfunction in the adult.
- Accurately diagnose the advanced cell carcinoma for treatment with targeted therapies.
- Recognize advanced treatment options in the management of prostate, bladder and kidney cancer.
- Analyze advances in the minimally invasive treatment of prostate cancer in order to see how to optimize outcomes for the treatment for localized prostate cancer.
- Assess role of art treatments for tumors.

**Accreditation**

Physicians: USF Health is accredited the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. USF Health designates this live activity for a maximum of 15 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Physician Assistants: USF Health accepts certificates of participation for educational activities certified by Accreditation Council for Continuing Medical Education (ACCME) or a recognized state medical society. Physician Assistants may receive a maximum of 15 hours of credit for completing the program.

**Objectives**

- Properly improve patient care by demonstrating the latest advances in the field.
- Compare the benefits and risks of modern medical management of prostate, bladder and kidney cancer.
- Discuss the latest advancements in the management of prostate, bladder and kidney cancer.
- Recognize the latest advancements in the management of prostate, bladder and kidney cancer.
- Annotate the latest advances in the field.
- Achieve a high level of satisfaction from organizations accredited by ACCME or a recognized state medical society.

**Accreditation**

USF Health designates this live activity for a maximum of 15 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**Target Audience**

- Urologists
- Physician Assistants
- Other Healthcare Professionals

**Course Description**

One of the greatest challenges for the practicing urologist is staying abreast of the latest advances in the field. This course is designed for practicing urologists to optimize outcomes for the treatment of prostate, bladder and kidney cancer. The latest advancements in the field will be described and the latest methodology in the management of prostate, bladder and kidney cancer will be incorporated into clinical practice. The role of modern medical management of prostate, bladder and kidney cancer will be recognized.
